Approval of Minutes. Ms. Bessant requested action on the November 30, 2016, Audit, Compliance, and Enterprise Risk Management Committee open and closed session meeting minutes.

Action. On a motion by Mr. Price, seconded by Ms. Schulte, the Committee approved the November 30, 2016, meeting minutes.

Internal Audit Update. Mr. Qureshi introduced Donna Allen and Cathy Clark, Audit Supervisor and Audit Manager for the North Carolina Office of the State Auditor. Ms. Clark stated that the Office of the State Auditor had recently completed the fiscal year 2016 financial statement audit for UNC Charlotte. Ms. Clark reviewed UNC Charlotte’s management responsibilities related to the audit, the auditing process, and the auditors’ responsibilities. Ms. Clark stated that the Office of the State Auditor reviewed the University’s financial statements but did not express an opinion on the effectiveness of the University’s financial controls. Ms. Clark reported that the Office of the State Auditor found the University’s financial statements to be fair in all respects and that no findings resulted from the audit, and she stated that the Office of the State Auditor has a very cooperative relationship with the University’s financial reporting team. Ms. Clark stated that she had sent a letter describing the results of the financial statement audit to Audit, Compliance, and Enterprise Risk Management Committee Chair Cathy Bessant. Ms. Bessant thanked the University’s financial team for their excellent work.

Mr. Qureshi stated that annual audits of the Foundation of the University of North Carolina at Charlotte, the Athletic Foundation of the University of North Carolina at Charlotte, the University of North Carolina at Charlotte Facilities Development Corporation, the University of North Carolina at Charlotte Investment Fund, and Ventureprise had been completed by external auditors with no findings noted.

Mr. Qureshi reviewed the Internal Audit Plan for fiscal year 2016, summarized Internal Audit reports issued since November 2016, and reviewed the Internal Audit Active Findings Report. Ms. Bessant asked when the remaining unresolved findings were expected to be completed. Mr. Qureshi stated that the team is making an effort to resolve all findings by the end of March.

Mr. Qureshi presented the Internal Audit balanced scorecard. Mr. Qureshi stated that the Internal Audit staff certifications are behind schedule but that the team will complete its certifications when Internal Audit is fully staffed. Ms. Bessant asked what motivates Internal Audit’s clients to resolve findings by the deadlines that are set and what consequences result when a client does not meet the deadline. Mr. Qureshi stated that Internal Audit consistently reminds clients about their deadlines. Ms. Hardin stated that the framework of internal audits has changed in the last ten years and the Internal Audit team is now auditing departments that previously had never been audited and are unfamiliar with the audit process. Ms. Hardin stated that in some cases the client sets the deadline prior to fully knowing what remedial actions will need to take place.

Mr. Qureshi stated that two planned audits remain to be completed in the fiscal year and that the pace of completion has been slow because of temporarily reduced staffing in the Internal Audit department.

Mr. Qureshi reviewed findings from the internal audit of the Environmental Health and Safety Office (EHSCO), which he noted had focused on hazardous materials training and handling, fire safety, and lab safety. Mr. Qureshi stated that EHSCO staff have been proactive in working with Internal Audit and are committed to resolving the findings. Ms. Hardin and the Committee members discussed issues involved in resolving the findings and the timeline for implementing
new safety compliance software. Ms. Bessant stated that all findings related to campus safety risk should be resolved quickly, and she requested that the Committee be updated at every meeting until EHSO has done so. Ms. Bessant commended Internal Audit for prioritizing audits in the areas of highest risk. Ms. Burgess noted that she is completing an inventory of compliance-related training. Dr. Lorden noted that safety training is always part of students' laboratory experiences.

Compliance Update. The compliance update was deferred to a later meeting because of time constraints.

Motion to Convene in Closed Session. Ms. Bessant called for a motion to convene in closed session.

Request for Preliminary Resolution for Funding Certain Projects with Debt. Ms. Hardin stated that the State Budget Office has instituted a new requirement that the Board of Governors approve a preliminary resolution for debt funding of capital projects prior to approving construction contracts. The Board of Trustees authorized the Scott Hall and Health and Wellness Center projects
on February 13, 2015, and April 23, 2015, respectively, and subsequently the Board of Governors authorized the two projects on February 27, 2015, and May 22, 2015, respectively. The Scott Hall and Health and Wellness Center projects were approved out of sequence so that the work could begin and the project would remain on schedule. The special obligation bond financing is scheduled for fall 2017 during fiscal year 2018. The fund source for the Scott Hall renovation repayment of debt is housing receipts and the fund source for the Health and Wellness Center is student fees.

**Action.** On a motion by Ms. Decker, seconded by Mr. Klein, the Committee unanimously recommended that the Board approve the resolution authorizing the University to issue debt in fall 2017 in the form of special obligation bonds to undertake the capital improvement projects Scott Hall Renovation and the Health and Wellness Center.

**Request for Authorization of Capital Project—Student Activity Center (SAC) IT Upgrade.** Ms. Hardin stated that excess SAC debt fees will pay for this project. The current network cabling is not compatible with present-day network equipment. Wiring for network, electrical and cooling purposes will be updated.

**Action.** On a motion by Mr. Jamil, seconded by Mr. Klein, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Student Activity Center (SAC) IT Upgrade, with a budget of $1.8 million.

**Request for Approval of Authorization of Capital Projects—Parking Lots Revitalization.** Ms. Hardin stated that parking receipts will pay for this project. Parking lots, 5A, 16A, 20, 21, and the Barnhardt Student Activity Center (SAC) handicapped parking area will be improved along with and the upgrades of certain parking areas to meet ADA standards.

**Action.** On a motion by Mr. Jamil, seconded by Mr. Klein, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Parking Lots Revitalization, with a budget of $1.6 million.

**Request for Approval of Construction Manager at Risk—Science Building.** Ms. Hardin stated that the NC Connect Bond program allocated $90 million to this project and an additional $11 million came from University funds. Nine firms submitted proposals for this project and four were chosen for interviews on December 8, 2016. Mr. Jones stated that the firms selected have experience with utility plants and have worked on science building projects with other universities. These firms also meet our HUB goals. Mr. Klein asked if an auditor is part of our capital projects to make sure that all conditions are met in projects. Mr. Jones stated the University does hire an outside auditor for capital projects for this reason. The selection committee recommends approval of the following:

- **Selected:** Balfour Beatty Construction
- **1st Alternate:** Turner Construction
- **2nd Alternate:** BE & K Building Group
Action: On a motion by Mr. Klein, seconded by Mr. Jamil, the committee unanimously recommends the Board approve the selected construction manager at risk, Balfour Beatty, and first and second alternates Turner Construction and BE & K Building Group for the Science Building project.

Request for Increase in Capital Project Authorization – Campus Infrastructure Development (CID) – Phase II. The University has entered into an agreement with the City of Charlotte and the NC Department of Transportation (NCDOT) on the East Village infrastructure project, a part of CID. The approved authorization is $50,830,000. The City of Charlotte and NCDOT will contribute an additional $2,150,000 toward the realignment of John Kirk Road to improve the flow of traffic in this area into and out of campus.

Action: On a motion by Mr. Jamil, seconded by Mr. Klein the committee unanimously recommends the Board approve an increase in the authorization for the Campus Infrastructure Development (CID)-Phase II project from $50,830,000 to $52,980,000.

Request Authorization to Acquire by Lease: Off-Campus Warehouse Storage: Ms. Hardin stated that the committee and Board of Trustees authorized warehouse storage project lease at our November meeting. However, the previous landlord leased the property to someone else. The University found other storage facilities that can be used to accommodate the storage of office furniture, equipment, surplus and other miscellaneous items throughout our five-year capital plan.

Action: On a motion by Mr. Jamil, seconded by Mr. Klein the committee unanimously recommends the Board approved the request to lease warehouse storage at a renal cost of $99,250 for an initial three-year term.

Capital Project Improvement Update. Mr. Jones stated that University staff was in mediation with the contractor, Miles McClellan for the Oak Hall Renovation project on November 29, 2016. No resolution was made. The contractor’s claim will be adjudicated by the Director of State Construction.

Liquidated damages have been assessed against the contractor to cover the additional costs incurred by Housing and Residence Life to house students in another building while construction was completed.

Report on 2017-23 Six-Year Appropriated and Non-Appropriated Projects. Mr. Jones stated that the UNC system requires three different six-year plans. Appropriated projects are those funded by the state. It is imperative that all capital needs are put into the system for planning. This helps state officials ascertain what will be happening in what sequence.

Non-appropriated projects are those covered by receipts and fees. The University determines priorities from this list.

The six-year “wish list” has to be resubmitted every two years. Some projects will be pushed further out than the times listed on the matrix.
The committee asked about the listing of land acquisitions on the matrix. Ms. Hardin stated that if the University needs to acquire land it can, i.e. land near the Center City Building. Mr. Jones' staff has identified a large parcel of space that we can acquire in the University area. The medical office and condominiums next to the Foundation building are on this list.

Moore and Sanford Halls will be the last renovations the University will do for some time.

The committee members requested that at the next meeting staff share information regarding all University-owned land, including Foundation and Endowment holdings. With many projects happening in the area and the advent of light rail, the committee also asked the report include land and properties the University might consider acquiring.

With no further business, the meeting was adjourned.
