Statutes, and advised the Committee members to notify her immediately if anyone should become aware of a conflict of interest or the appearance of a conflict of interest during the meeting. No conflicts of interest were reported.

Approval of Minutes. Ms. Bessant requested action on the December 3, 2015, Audit, Compliance, and Enterprise Risk Management Committee meeting minutes.

Action. On a motion by Ms. Rouse, seconded by Ms. Schulte, the Committee approved the December 3, 2015, Audit, Compliance, and Enterprise Risk Management Committee meeting minutes.

Internal Audit Update. Mr. Qureshi introduced Donna Allen and Cathy Clark, Audit Supervisor and Audit Manager for the North Carolina Office of the State Auditor. Ms. Clark stated that the Office of the State Auditor had recently completed the fiscal year 2015 financial statement audit for UNC Charlotte and has completed the fieldwork for a UNC Charlotte student financial assistance cluster audit. Ms. Clark reviewed UNC Charlotte’s management responsibilities related to the audit, the auditing process, and the auditors’ responsibilities. Ms. Clark stated that the Office of the State Auditor reviewed the University’s financial statements but did not express an opinion on the effectiveness of the University’s financial controls. Ms. Clark reported that the Office of the State Auditor found the University’s financial statements to be fair in all respects and that no findings resulted from the audit, and she stated that the Office of the State Auditor has a very cooperative relationship with the University’s financial reporting team. Ms. Clark indicated that she had sent a letter describing the results of the financial statement audit to former Audit, Compliance, and Enterprise Risk Management Committee Chair Joe L. Price. Ms. Bessant asked Ms. Clark whether she would like to make any comments in addition to the information in the letter. Ms. Clark had no further comments. Mr. Forte stated that the State Auditor’s office had been particularly helpful in reviewing a recent pension adjustment, which he stated was the most significant change in the University’s financial statements. Ms. Bessant thanked the University’s financial team for their excellent work.

Mr. Qureshi stated that external auditors had completed the annual audits of the Foundation of the University of North Carolina at Charlotte, the Athletic Foundation of the University of North Carolina at Charlotte, the University of North Carolina at Charlotte Facilities Development Corporation, the University of North Carolina at Charlotte Investment Fund, and Ventureprise, with no findings noted.

Mr. Qureshi reviewed the Internal Audit Plan for fiscal year 2016, summarized Internal Audit reports issued since December 2015, and reviewed the Internal Audit Active Findings Report. Ms. Bessant asked when the remaining unresolved findings were expected to be completed. Mr. Qureshi stated that the team is making an effort to resolve all findings by the end of March. Mr. York stated that Housing and Residence Life encountered unanticipated obstacles in resolving a finding related to information technology compliance and that Internal Audit had determined that the finding should remain open. Mr. Price asked whether the findings were primarily related to student information, and Mr. York stated that the findings were related to the physical location of servers and that he does not believe that any student information is at risk.

Mr. Qureshi also presented the Internal Audit balanced scorecard. Ms. Schulte asked Mr. Qureshi to explain the “percentage of findings resolved on time,” and Mr. Qureshi stated that findings considered closed on time were closed by the date that the audit client provided in
response to the finding. Mr. York stated that as part of the correction action from the Quality Assurance Review in 2013 Internal Audit began tracking completion dates to ensure that audit clients closed out findings in a timely fashion. Ms. Schulte asked whether the completion rate of 60 percent is indicative of audit clients’ attention to resolving findings, and Mr. York stated that the process of holding clients accountable to the completion date they set is a new part of the process but that clients often encounter unexpected obstacles to completing their corrective actions. Ms. Hardin stated that the framework of internal audits has changed in the last ten years and that the Internal Audit team is now auditing departments that had never been audited before and are unfamiliar with the audit process. Mr. York stated that audit clients now know that if their audit results in findings their management will be required to attend an Audit, Compliance, and Enterprise Risk Management Committee meeting to explain their plan for completing corrective actions and that element of the process provides an incentive to resolve findings on time.

Mr. Qureshi summarized an article titled “To Audit Emerging Risks, We May Have to Leave Our Comfort Zone,” which was included in the boardbook for the Committee.

Compliance Update. Ms. Burgess stated that she is focusing on compliance in two main areas: Department of Defense cybersecurity regulations issued in August 2015 in response to recent large data breaches, and Title IX. Ms. Burgess stated that the new regulations expanded the types of information that have to be secured and require the reporting of breaches to the Department of Defense. Ms. Burgess stated that although the University does not maintain the covered types of data on its servers, and therefore the risk of a breach would be very low, a small risk exists from the possibility of data being downloaded illegally. Ms. Burgess stated that the University’s data security plans are being updated in response to the new regulations. Ms. Bessant asked whether faculty are compliant with data security initiatives and Ms. Burgess stated that she has encountered no resistance from faculty.

Ms. Burgess stated that she is serving as the interim Title IX coordinator and that a search is underway for a permanent coordinator. Ms. Burgess stated that the Title IX office was very busy when she stepped into the interim position but that the caseload has since been reduced. Mr. Broome stated that at least 23 cases have been closed. Ms. Burgess stated that the addition of a second investigator and a case manager is being considered. Ms. Burgess stated that Campus Clarity’s online course titled “Think About It” is available to students but that participation has been very low and she is considering options for improving participation.

StormReady Presentation. Tony Sturey, Warning Coordination Meteorologist with the National Weather Service, introduced himself and explained that the StormReady status that UNC Charlotte recently earned is a voluntary program that recognizes the preparation of a community or campus for weather-related emergencies. Mr. Sturey thanked the Committee and the Chancellor for the opportunity to present the StormReady designation during the meeting and stated that the University should be very proud of the exceptional work accomplished by its Police and Public Safety and Emergency Management departments.

- The next Board of Trustees meeting on Thursday, April 28, at the Student Union.

Ms. Popp stated that the Board of Trustees is required to complete a self-assessment every year. Ms. Popp stated that a consultant may be engaged to assist with the creation and administration of a self-evaluation survey and that the results of the self-assessment will be reported to the General Administration.

Approval of Minutes. Ms. Popp requested action on the minutes of the December 3, 2015, meeting of the Board of Trustees.

Action. On a motion by Mr. Wilson, seconded by Mr. Jamil, the Trustees approved the December 3, 2015, Board of Trustees meeting minutes.

Remarks by the Chancellor. Chancellor Dubois stated that spring 2016 enrollment is 26,306, up 602 students from spring 2015, and that applications for undergraduate admission for 2016-2017 are up 10 percent over 2015-2016 and graduate applications have increased by 2,500 over 2015-2016.
Chancellor Dubois stated that UNC President Spellings’ visit to UNC Charlotte on March 14 and 15 will include meetings with the Cabinet, a campus tour with stops at EPIC and the Data Visualization Center at Woodward Hall, a media event on the Connect NC Bond, lunch with students, meetings with the Faculty and Staff Councils, interaction with community leaders, and an appearance on Charlotte Talks on WFAE Radio. Chancellor Dubois also encouraged the Trustees to attend a private reception prior to the community reception with President Spellings on Monday, March 14.

Chancellor Dubois stated that he and Ms. Doster have visited a number of community organizations in several counties to discuss the Connect NC bond referendum and to talk to local media about the bond.

Chancellor Dubois stated that he and Ms. Drew attended the January 21 Board of Governors meeting to make a presentation on the proposed Health and Wellness Center, the funding of which required Board of Governors approval before going to the North Carolina General Assembly. The Chancellor stated that the project was well received, and he thanked Ms. Drew for her work. The Chancellor stated that the planned Admissions and Visitors Center will be financed in a manner that will not require Board of Governors or General Assembly approval.

Chancellor Dubois stated that planning for the redesign of Belk Plaza has begun and that approximately 150 people, primarily students, attended a February 8 public forum to discuss the project. Chancellor Dubois stated that another forum would be held on February 22 and a third would be held in the spring. The Chancellor noted that the Board of Trustees authorized $3 million for the project but that the actual project cost may be lower and the project will likely be completed in phases over several years.

Chancellor Dubois stated that University Advancement is making good progress in the Exponential Campaign and has $95.6 million in written commitments and an additional $11.2 million in gift agreements in process. The Chancellor stated that the campaign will be formally announced on September 23, the 70th anniversary of the opening of the Charlotte Center.

The Chancellor also noted that next Chancellor’s Speaker Series lecture will be held September 22 and he encouraged the Trustees to plan to attend that event.

Chancellor Dubois stated that the Medical Education Citizens Committee is continuing its efforts to advocate for the development of a freestanding, four-year medical school in Charlotte. The Chancellor stated that he is chairing the nine-member Task Force, which also includes Dr. Lorden and College of Health and Human Services Dean Nancy Fey-Yensan. The Chancellor stated that the Task Force has agreed on its goals and has begun to analyze future demand and the role that a medical school might play in Charlotte. Mr. Jamil asked when a recommendation would be made, and Chancellor Dubois stated that the Task Force plans to make its recommendation by fall 2016. The Chancellor noted that the ability to create opportunities for medical residencies in the Charlotte area is a crucial component of the decision, because 75 percent of doctors who complete their medical training and residency in one geographic location remain in the region to practice.

Chancellor Dubois stated that the Carnegie Foundation for the Advancement of Teaching has reclassified UNC Charlotte as a doctoral-granting institution with higher research activity to reflect the University’s increased number of doctoral degrees awarded and increased expenditures for research and development.
Mr. Price asked the Chancellor to update the Board on a student housing complex near campus where several incidents had occurred. Chancellor Dubois stated that the housing complex’s owner, a UNC Charlotte alumnus, has been proactive about improving safety at the complex, and Ms. Newkirk stated that the owner has expressed interest in opting into the Niner Choice program, which requires property owners to meet certain safety standards in order to list the property on the University’s Student Housing website.

Fee Structure for Health and Wellness Center. Chancellor Dubois requested that the Board of Trustees approve the financing plan for the Health and Wellness Center. The Chancellor stated that the Board had already approved the project authorization of $66 million, above the projected $63.5 million anticipated cost, but that approval is also required for the financing plan. The Chancellor stated that of the $22.6 million in current debt service reserves from the Student Activities Center and Student Union the University would use $15 million for construction costs and $5.4 million to eliminate the Student Activities Center debt in 2017-2018. The Chancellor also proposed eliminating the SAC fee of $130, reducing the Student Union fee from $210 to $163 per year, and adding a new Health and Wellness fee of $162 per year. The Chancellor stated that these actions would reduce by $15 the annual net debt service fees. The Chancellor also stated that an additional $65 operational fee is being phased in over six years, starting with a $2 increase in 2015-2016 and growing to $65 by 2020-2021. The Chancellor stated that applying that $15 reduction toward the $65 operational fee would increase student fees overall by $50.

Ms. Popp requested a motion to approve the fee structure for the Health and Wellness Center.

Action. On a motion by Mr. Wilson, seconded by Ms. Bessant, the Board of Trustees approved the fee structure for the Health and Wellness Center as presented.

UNC Charlotte Retention and Graduation Data (Orientation). Dr. Lorden presented information on student success at UNC Charlotte, including freshmen and transfer graduation rates, peer comparisons, and the relationship of standardized test scores and socioeconomic status to degree attainment. Dr. Lorden also presented information on several University programs being used to help boost retention and graduation rates. Mr. Hauser asked how the University teaches advising skills to faculty. Dr. Lorden stated that the University has fifty full-time advisors who participate in a broad training program and that faculty and staff advisors participate in fall and spring semester seminars. Ms. Popp asked in what year students most often choose not to continue, and Dr. Lorden said that the largest number of students who are not retained transfer or drop out in the freshman year. Dr. Lorden stated that the expansion of the Honors program will increase retention, and she noted that opportunities to increase retention do exist with higher-achieving students. Ms. DeVore asked what the University’s graduation rate target is, and Dr. Lorden stated that a 60 percent or higher graduation rate would be in line with the UNC system’s overall 60 percent graduation rate.

Institutional Plan Assumptions. Chancellor Dubois presented assumptions being used to develop the University’s 2016-2021 Institution Plan, including projected institutional, demographic, fiscal, and political conditions.
Approval of Naming Policy and Revision of Board of Trustees Bylaws. Mr. Sorensen reviewed University Policy 602.9, Naming Opportunities, which he stated will replace the University’s previous naming guidelines. Mr. Sorensen stated that the policy anticipates the need to review endowment levels in the future, which he stated will be most important for the endowment of professorships. Ms. Newkirk reviewed proposed changes to the Bylaws of the Board of Trustees of the University of North Carolina at Charlotte to reflect the content of University Policy 602.9. Ms. Newkirk also presented a Resolution to Amend the Bylaws of the Board of Trustees of the University of North Carolina at Charlotte.

Ms. Popp requested a motion to approve University Policy 602.9, Naming Opportunities, and the Resolution to Amend the Bylaws of the Board of Trustees of the University of North Carolina at Charlotte.

Connect NC Bond Referendum Update. Ms. Doster updated the Trustees on the University’s efforts to publicize the Connect NC Bond referendum, including the Chancellor’s visits to several counties, internal and external communications, voter registration, and many individuals’ efforts to share information about the importance of the bond vote. Ms. Popp stated that the Connect NC Bond logo displayed during a recent home basketball game was very effective. Ms. Doster stated that the North Carolina General Assembly goes into session on April 23, and that the University is concerned about the state budget, including a proposal that would cap all state funding for advancement efforts at $1 million per campus, which would be a $2.5 million decrease for UNC Charlotte.

Facility Funding, Design, and Construction Process (Orientation). Ms. Hardin reviewed the process for the funding, design, and construction of campus facilities. Ms. Hardin noted that facilities development is guided by the University’s master plan. Ms. Hardin reviewed aspects of project planning, including the submission of six-year plans for appropriated and non-appropriated capital improvements; the project authorization process; project funding, including funding sources for capital projects; and the design and construction process. To illustrate the process, Ms. Hardin reviewed a “concept to construction” timeline for the EPIC building. Chancellor Dubois remarked that the process is complicated by the state’s very low limitation of $300,000 for chancellor approval of construction projects, with anything above that amount requiring approval by the Board of Governors. Ms. DeVore asked how the University manages its debt rating, and Ms. Hardin stated that the University recently chose to strategically downtrade to achieve greater debt capacity. Ms. Hardin explained “facilities and administrative costs” (F&A) at Mr. Hauser’s request, noting that F&A is a negotiated overhead rate designed to reimburse research sponsors for the use of their facilities. Chancellor Dubois stated that the Board of Governors is reconsidering whether the current facilities funding model will be maintained or whether Board of Trustees approval of construction projects should be reapproved by the Board of Governors.

Delegated Authority (Orientation). Because of time constraints, the delegated authority orientation was postponed to a later meeting.

Mr. Daratony reported that, as its class gift, the Class of 2017 is proposing the relocation of the miner statue from the median near the Reese and Colvard Buildings to the bottom of the grand staircase at the plaza of the Colleges of Education and Health and Human Services, and facing the Student Union. Mr. Daratony stated that he is considering whether to run for the SGA presidency for an additional year.

Dr. Leak stated that the Faculty Council passed a Resolution in Support of the 2015...
Connect Bond referendum at its January meeting. Dr. Leak reported that faculty members are deliberating a proposal to change the general education requirements and that the most significant remaining concern is related to buy-in from tenure-track faculty. Dr. Leak stated that most faculty agree that responsibility for the coursework in the new competencies-focused general education curriculum should not fall only on non-tenure-track faculty and lecturers.

Report of the University Staff Council. Mr. Kay reported that Ms. Doster had spoken to the Staff Council to discuss the importance of the Connect NC Bond measure. Mr. Kay stated that the Council had passed a Resolution in Support of the 2015 Connect NC Bond Act referendum.
