No conflicts of interest were reported.
Approval of Minutes. Ms. Popp requested action on the February 19, 2016, Audit, Compliance, and Enterprise Risk Management Committee meeting minutes.

Action. On a motion by Ms. Rouse, seconded by Ms. Schulte, the Committee approved the February 19, 2016, Audit, Compliance, and Enterprise Risk Management Committee meeting minutes.

Internal Audit Update. Mr. York introduced the Internal Audit staff and commended them for their excellent work.

Mr. York updated the Committee on the Annual Audit Plan for Fiscal Year 2016. Mr. York presented a summary of Internal Audit Reports issued since the last Audit, Compliance, and Enterprise Risk Management Committee meeting. Mr. York noted that the size and complexity of the Human Resources department made the HR audit difficult, particularly given the limited number of Internal Audit staff. Mr. York stated that the final audit of the Phase XII construction project revealed issues with insurance billing, as had an interim audit, and he asked Mr. Jones to discuss the details of the subsequent mediation process. Mr. Jones stated that the contract with the construction manager at risk for the Phase XII project, a residence hall in the East Village, provided for a guaranteed cost. Mr. Jones stated that the project ran 30 days late and the contractor filed a verified claim with the State Construction Office for $1.2 million over the guaranteed maximum price and then requested mediation. Mr. Jones stated that he believes this was the first time a contractor has filed a claim for charges exceeding a guaranteed maximum cost. Mr. York stated that Internal Audit has compiled a list of best practices for capital construction contracts to try to avoid claims in the future. Mr. York also discussed two findings from the North Carolina State Education Assistance Authority review of the University’s scholarship and need-based grant programs.

Mr. York reviewed the Board of Governors’ annual certification requirements for fiscal year 2016.

Mr. York also briefed the Committee on the audit plan for fiscal year 2017. Mr. York noted that the University has begun to focus on succession planning. Ms. Schulte stated that retirements can bring opportunities to increase diversity in the University’s leadership. Mr. York stated that Internal Audit uses the University’s Institutional Plan as a framework for the audit plan, and he stated that the goals listed in the plan were driven by the risk survey that was recently completed. Ms. Popp requested the Committee’s approval of the FY2017 audit plan.

Action. On a motion by Ms. Schulte, seconded by Ms. Rouse, the Committee approved the Internal Audit Plan for Fiscal Year 2017.

Ms. Popp acknowledged Mr. York’s impending retirement and thanked him for his excellent service to the University. Ms. Rouse commended Mr. York for strengthening the internal audit process at UNC Charlotte. Mr. York thanked the Committee members.

Ms. Popp asked whether the University is working on a succession plan, and Ms. Hardin stated that Human Resources is developing data on current staff and administrators who will be eligible for retirement in the near future. Ms. Popp stated that the Board should review the workforce profile at an upcoming meeting.
Compliance Update. Ms. Burgess updated the Committee on the University’s Compliance program. Ms. Burgess discussed the first report received via the EthicsPoint reporting system and reviewed how the availability of EthicsPoint is being advertised to the campus community. Ms. Burgess stated that she believes that it will take time for the system to become more widely used. Ms. Burgess stated that marketing materials will be developed to brand the Ethics and Compliance program.

Ms. Popp asked for an update on House Bill 2. Ms. Newkirk reviewed input from campus constituents, including students and donors. Dr. Lorden stated that a few applicants for positions on the faculty have expressed concern about the state’s stand on the transgender bathroom issue.

Whistleblower Policy (Orientation). Mr. Humphrey presented an overview of North Carolina law addressing whistleblowing and University Policy 803, Reporting and Investigation of Suspected Improper Activities and Whistleblower Protection. Mr. Humphrey discussed the obligations of the University and the Board of Trustees when a report is made and the use of EthicsPoint for whistleblower reporting. Mr. Humphrey stated that, unlike North Carolina law, the University’s policy does protect student whistleblowers. Ms. Popp suggested that all whistleblower reports should be maintained in a central repository so that Internal Audit can be aware of patterns that may occur, and Mr. York stated that whistleblower reports could be added to the EthicsPoint database. Ms. Popp also stated that the investigation of whistleblowing reports should be standardized and that investigators should be trained.

Motion to Convene in Closed Session. Ms. Popp called for a motion to convene in closed session.

Action. On a motion by Ms. Rouse, seconded by Ms. Schulte, the Board convened in closed session pursuant to the following General Statutes of the State of North Carolina:

a. N.C.G.S. §143-318.11(a)(1), to prevent the disclosure of information that is privileged or confidential pursuant to the laws of this State or of the United States, or not considered a public record within the meaning of Chapter 132 of the General Statutes, such privilege or confidentiality arising under the Family Educational Rights and Privacy Act (20 U.S.C. §1232g) or N.C.G.S. Ch. 126, Art. 7; and

Student Entrepreneurship. Dr. Lorden introduced Mr. Wetenhall, President and Executive Director of Ventureprise, to present an overview of student entrepreneurship opportunities. Mr. Wetenhall stated that UNC Charlotte directly interacts with more than 900 companies annually through a variety of programs. Mr. Wetenhall stated that student engagement with Ventureprise occurs in four distinct ways: academic courses; co-curricular activities; tech commercialization, such as the I-Corps Ventureprise Charlotte Launch; and experiential programs, such as the 49er Foundry. Mr. Wetenhall introduced Mr. Collins, assistant director of Business and Entrepreneurial Development, who shared additional details about the 49er Foundry, which connects students to shared workspace and private meeting space to “learn by doing” through work on startup companies. Mr. Collins stated that the Foundry’s Student Business Incubator has thirteen active companies with twenty undergraduates and thirteen graduate students. Mr. Wetenhall described another example of student engagement, the Ventureprise Charlotte Launch, which included twenty-five student teams focused on accelerating commercialization during its first year as a National Science Foundation I-Corps Site. Mr. Wetenhall introduced undergraduate student Raymond Ferrell, a finalist in the 2016 University of North Carolina Social Entrepreneurship Conference competition, who shared his team’s plan for providing students with assistance at the incubator stage of entrepreneurship.

Educating Veterans (Orientation). Dr. Jackson, Vice Chancellor for Student Affairs, introduced Mr. Vacchi, associate director of Veteran Student Services. Mr. Vacchi presented information on how UNC Charlotte educates student veterans, including a veterans’ transition course and the Military Affairs Council. Mr. Vacchi stated that, through Human Resources’ Learning and Organizational Development program, the Veteran Student Services Office offers professional development to University staff working with people with military experience and is actively seeking to bring its training presentation into the University’s colleges and academic departments. Mr. Vacchi also stated that beginning in June 2016 the Office of Veterans Services will host an annual scholars’ retreat to serve as an incubator for knowledge generation about veterans in higher education, and that the proceedings of that conference will be published in a new journal titled Veterans in Higher Education, which will be hosted on the Atkins Library digital system and distributed in print by UNC Press. Mr. Vacchi also described the work of the Military Advisory Committee, a campus-wide committee that serves to discuss, address, and make recommendations related to the more than 650 student veterans on campus.

49ers Rocketry: NASA Student Launch. Mr. Dahlberg, a graduate student in the Department of Mechanical Engineering and Engineering Science, shared the results of the UNC Charlotte 49er Rocketry Club Team project that won “Best Vehicle Design” in the NASA Launch Competition and placed in the top three internationally at the National Instruments competition. Mr. Dahlberg noted that the work presented has been featured in product advertising for National Instruments and in advertisements for the student competition.

Action. On a motion by Ms. Popp, seconded by Mr. Daratony, the Committee approved the February 19, 2016, Athletics Committee meeting minutes.

Review of Athletic Academic Policies and Procedures. Dr. Leak presented the findings of the review of the Summary of UNC Chapel Hill Policy Changes in Academics and Athletics. Dr. Leak noted several differences between UNC Charlotte athletic academic policies and those of UNC Chapel Hill. Dr. Leak noted that UNC Charlotte student-athletes are assigned primary advisors determined by their declared majors and athletic academic advisors as secondary advisors. Dr. Leak also noted that UNC Charlotte has student-athletes in every college. Dr. Leak stated that, even with the highest percentage of student-athletes, the College of Liberal Arts and Sciences (CLAS) still has below 50 percent of all student-athletes in CLAS majors. Dr. Leak stated that UNC Charlotte's football team has two advisors, and that UNC Charlotte appears to stress self-accountability in student-athletes. Dr. Leak noted that UNC Charlotte does not have sport-specific tutors, as does UNC Chapel Hill (for example, a football student-athlete at Chapel Hill works with one tutor for all coursework). Dr. Leak stated that UNC Charlotte tutors are students or graduate students recommended by faculty to tutor in subject-specific areas. Dr. Leak also noted that the Chancellor appoints the Faculty Athletic Representative and members of the Chancellor’s Advisory Council on Intercollegiate Athletics.

Student-Athlete Advisory Committee Update. Ms. Everett presented a summary of the work of the Student Athlete Advisory Committee in 2015-2016. Ms. Whitestone stated that the committee has developed three subcommittees: Interpersonal Violence Prevention, Gender Equity Planning/Program Area Evaluations, and Student Athlete Feedback. Ms. Whitestone also reported that women’s golf is on track to begin competition in 2016-2017 and that Athletics is working to confirm the addition of swimming to meet Title IX program expansion requirements.
Team Rules and Accountability. Updated information will be presented at the October 2016 Committee meeting.

Paul Forte, Associate Vice Chancellor for Financial Services
Jane Johansen, Director of Treasury Services

Call to Order. Ms. Drew called the meeting to order and reminded Committee members of their duty to avoid conflicts of interest and appearances of conflicts of interest under the State Government Ethics Act, in accordance with Chapter 138A of the North Carolina General Statutes, and advised the Committee members to notify her immediately if anyone should become aware of a conflict of interest or the appearance of a conflict of interest during the meeting. No conflicts of interest were reported.

Approval of the Minutes. Ms. Drew requested action on the February 19, 2016, minutes of the Facilities and Physical Properties Committee.

Action. On a motion by Mr. Klein, seconded by Mr. Price, the Committee unanimously approved the February 19, 2016, Facilities and Physical Properties meeting minutes.

Request to Issue Debt for Proposed Project Financing. Ms. Hardin stated that North Carolina General Assembly has approved the Elm, Maple, and Pine Halls renovation project as a
nonappropriated project. Ms. Hardin asked for the Committee’s approval to issue debt of just over $20.4 million, including issuance costs, for the project. Ms. Hardin stated that the proposed financing is expected to be in the form of a bank direct purchase, which she stated would give the University the ability to draw funds only when needed and would provide the University the lowest-cost funds and the maximum flexibility to meet interim and short-term financing needs. Ms. Hardin stated that the University anticipates refinancing the total bank direct purchase in fiscal year 2018 with 30-year bond financing.

Ms. Hardin stated that the University will seek to issue debt for the Health and Wellness Center at some point later in the year. Ms. Hardin stated that University staff analyzed whether the issuance of this additional debt would affect the University’s credit ratings and had concluded that it was unlikely to do so. Ms. Hardin stated that the University’s financial advisor is Hilltop Securities/First Southwest.

**Action.** On a motion by Mr. Klein, seconded by Mr. Price, the Committee recommended that the Board of Trustees authorize the University to issue debt in an amount not to exceed $20,000,000, plus issuance costs, to fund the non-appropriated Elm, Maple, and Pine Halls projects that have received General Assembly approval.

**Request for Capital Project Authorizations.** Ms. Hardin discussed five projects:

**Union Deck Expansion.** Ms. Hardin stated that the Union Deck expansion will add spaces to the west end of the Student Union Deck, making up for parking spaces that will be eliminated when the Health and Wellness Center is constructed. Mr. Klein asked several questions about the cost and the type of construction for this project. Mr. Jones shared that the authorization will cover the anticipated maximum cost and that the project is receipt-funded. Within the discussion, the Committee recommended that a larger estimate of the number of spaces that may be created should be included in the authorization request, increasing the request from “approximately 500” to “500 to 600” spaces.

**Action.** On a motion by Mr. Price, seconded by Mr. Klein, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Union Deck Expansion, which will add approximately 500 to 600 spaces to the west end of the Student Union deck, with a project budget of $12,000,000.

**Parking Lot 8 Expansion.** Ms. Hardin stated that Lot 8 will provide additional parking for the South Village, support the Admissions and Visitors Center with dedicated spaces, and provide additional parking needed by residents and staff of the Levine Residence Hall.

**Action.** On a motion by Mr. Price, seconded by Mr. Klein, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Parking Lot 8 Expansion, with a budget of $475,000.
Parking Lot 11A Expansion. Ms. Hardin stated that this project expands the lot near the Student Health Center and future Counseling Center, and that building the Counseling Center will eliminate approximately 30 existing spaces. Ms. Hardin stated that the Lot 11A Expansion project will create 50 spaces, which make up for the loss and add 20 additional spaces.

Action. On a motion by Mr. Price, seconded by Mr. Klein, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Parking Lot 11A Expansion, with a budget of $475,000.

Request for Authorization of Capital—Facilities Operations Complex. Ms. Hardin stated that the current Facilities Operations building will be demolished because it is located on the new Science Building site and that a new Facilities Operations and Receiving and Stores building will be built near the Grounds compound and the Facilities Management/Police building. Ms. Hardin indicated that the project will be funded from Facilities and Administration (F&A) and carry-forward funds.

Action. On a motion by Mr. Price, seconded by Ms. Decker, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Facilities Operations Complex, with a budget of $21,298,000.

Request for Authorization of Capital Project—Parking Services Building. Ms. Hardin stated that a new parking services building must be built before the current building is demolished as part of the construction of the new science building. Mr. Jones stated that several site options are being considered, and that all options will consolidate all Parking Services operations under one roof and will eliminate all satellite offices. Mr. Jones stated that the project will be paid for with parking services receipts.

Action. On a motion by Mr. Klein, seconded by Mr. Price, the Committee unanimously recommended that the Board of Trustees authorize the University to undertake a capital improvement project, Parking Services Facility, with a budget of $3,000,000.

Request to Dispose of Real Property by Demolition—Demolition of Two Facilities Operations Storage Sheds. Mr. Jones stated that two sheds used by Facilities Operations will be demolished to make way for the construction of the Student Counseling Center. Mr. Jones stated that the sheds were constructed in 1979 and 1988 and are now obsolete and have no salvage value. Mr. Jones also stated that the materials currently stored in these facilities will be relocated. Mr. Jones stated that the funds for this project will come from the Student Counseling Center budget.

Action. On a motion by Mr. Klein, seconded by Mr. Price, the Committee unanimously recommended that the Board of Trustees authorize the University to dispose of real property by demolition to provide space for a Student Counseling Center, with a budget of $12,314.
Request for Approval of Parking Systems Rate/Regulations. Ms. Hardin stated that Board is required by the North Carolina Secretary of State to approve any changes in the University ordinance governing parking rates and regulations. Ms. Hardin stated that parking rates for 2016–2017 will remain the same as they were in 2015–2016: $450 for general parking, $150 for gated access (premium parking), and $230 for reserved parking. Ms. Hardin stated that most changes in the ordinance relate to changes in technology and that some wording changes were made to improve student understanding. Ms. Hardin stated that parking rates have not increased for the third year in a row.

**Action.** On a motion by Mr. Price, seconded by Mr. Klein, the Committee unanimously recommended that the Board of Trustees approve proposed changes in the ordinance governing parking, traffic, and the registration of motor vehicles for the University.

**Authorization Increase—Elm, Maple, Pine Halls Renovation.** Ms. Hardin and Mr. Jones discussed the authorization for the Elm, Maple, and Pine Halls renovation project, which was approved previously by the UNC General Administration (GA) and the Office of State Budget and Management (OSBM). Ms. Hardin stated that the current request is for an additional $1,855,000, increasing the total authorization from $18,550,000 to $20,405,000.

Ms. Hardin stated that because of this significant cost increase, the project’s scope is being reduced to bring the total cost to within 10 percent of the original budget. Ms. Hardin stated that Housing and Residence Life reserves (cash on hand) will be used to cover project costs that exceed the capital project authorization.

Mr. Jones stated that the reduction in scope will eliminate many of the renovations to Maple Hall, which he stated is in the best condition of the three buildings. Mr. Jones stated that an elevator will be installed in order to make Maple Hall compliant with the Americans with Disabilities Act (ADA) and a lobby and study space will be created as part of the elevator addition. Mr. Jones stated that the designer will be revising the plans and specifications for Maple for resubmittal to the State Construction Office.

Mr. Jones stated that the renovations to Elm and Pine Halls will continue as planned. Mr. Jones stated that those renovations will include modernizing the interior suites of Elm and Pine Halls to include new carpet, paint, new kitchen surfaces, upgraded bathrooms, new mechanical and plumbing, replacement of windows and roofs and new elevators, which are required in order to comply with the ADA. Mr. Jones stated that some balconies in Elm and Pine will be enclosed as part of living areas and others will be repaired. Mr. Jones indicated that construction will begin on May 16, 2016, and will be completed by June 16, 2017.

**Authorization Increases—Campus Infrastructure Development (CID) Phase 1 and 2.** Ms. Hardin and Mr. Jones updated the Committee on the CID Phase 1 and 2 authorization increases. Ms. Hardin stated that the UNC General Administration (GA) and the Office of State Budget and Management (OSBM) have approved two authorization increases:
• CID Phase 1: $49,500,000 to $54,697,000. Ms. Hardin stated that these projects have had significant increases in costs due to unforeseen soil conditions and utility conflicts during construction. Ms. Hardin stated that the new bridge over Toby Creek connecting the Charlotte Research Institute with the main campus and the additional traffic studies on the East Village Roadway Improvements have dictated a significant change in road alignment, which has increased project costs.

• CID Phase 2: $46,000,000 to $50,830,000, an increase of $4,830,000. Ms. Hardin stated that the projects in the Phase 2 program include modernization of the Academic Complex, five buildings built in the early 1960s. During advance planning for these projects, the University conducted a facilities condition assessment and discovered unforeseen issues with the aging building systems, specifically the heating and air conditioning, plumbing, electrical, and envelope. Ms. Hardin stated that these system modernizations will be more expensive than anticipated when the project was initially authorized. Ms. Hardin also stated that these projects are funded by debt on the student infrastructure fee approved in four increments from 2013–2016.

2015 Reserve for Repairs and Renovation. Ms. Hardin provided the Committee members with a report on 2015 repairs and renovations to University buildings. Ms. Hardin stated that the state awarded UNC Charlotte $3,453,900 in repair and renovation funding, and that Business Affairs staff has allocated funds to three projects based on the University’s five-year capital plan priorities:

Annex Building Office Renovation ($600,000). Ms. Hardin stated that this property was constructed in 1989 and acquired by UNC Charlotte in 2015 and that it will be used for administrative functions.

Career Center Renovation ($2,000,000). Ms. Hardin stated that the Career Center, which is located in the Atkins Library, does not have sufficient space for the University’s growing student population. Ms. Hardin stated that the Career Center will expand into the space that will be vacated by the Student Counseling Center once their new facility opens in 2017.

Cone University Center HVAC Modernization ($853,000). Ms. Hardin stated that the Cone Center HVAC system was installed in 1974 and is at the end of its life cycle. Ms. Hardin stated that replacing all heating and cooling elements in this system will be an extensive project. Ms. Hardin stated that the true, total cost of the project is $1,700,000, which will be split funded, with one-half of the funds coming from auxiliary services. The building is currently shared between receipt- and general-funded entities.

Capital Improvement Projects Update.
