Athletics Committee Meeting Minutes

Spring 2017, the top ten majors for student-athletes in spring 2017, and a review of clustered courses as required by the UNC system. Ms. Hibbs noted that the transcript of any student-athlete who takes three or more clustered courses is reviewed. Ms. Hibbs also stated that courses are often classified as clustered based on similar requirements such as freshman or transfer seminars or the time of day; for example, Ms. Hibbs noted, morning courses are more suitable to practice schedules for several sports. Ms. Hibbs noted that seven of the top ten majors for student-athletes are also in the top ten for the overall undergraduate population at UNC Charlotte. Ms. Hibbs stated that the three other most common majors for student-athletes are Sociology, Africana Studies, and Exercise Science. Ms. Hibbs also provided a five-year overview of student-athlete admissions and stated that, during the past five years, 69 percent of specially admitted student-athletes have graduated and only two of thirty-five specially admitted student-athletes have been deemed academically ineligible to participate in their sport. Ms. Hibbs stated that these statistics are very good compared to those of other universities.

Academic Progress Rate Report. Mr. Byrd reviewed how the National Collegiate Athletic Association (NCAA) calculates academic progress rate (APR), the metric used to determine student-athlete progress toward graduation. Mr. Byrd stated that the APR of twelve of fifteen UNC Charlotte teams is above average and no team is in danger of approaching the minimum APR standard.

Athletics Financial Indicators Report. Mr. Spease provided an overview of student fee revenue as a share of Athletics’ total operating revenue. Mr. Spease stated that in the last fiscal year student fees have decreased by 2.5 percent as a part of overall operating revenue and that Athletics intends for reliance on student fees to continue to decrease. Mr. Spease also provided NCAA dashboard data comparing various operating expenditures and revenue with our peer institutions, Conference USA opponents, other FBS schools, and FCS schools. Mr. Spease stated that UNC Charlotte’s Athletics expenditures are on par with other Conference USA and FBS schools.

Hazing Education Update. Mr. Byrd provided an overview of the hazing education program for student-athletes. Mr. Byrd stated that all student-athletes attend an in-person meeting with coaches and staff to review UNC Charlotte’s hazing policies and reporting procedures. Mr. Byrd noted that this year, for the first time, head coaches were involved in the in-person meetings and participants were required to take a ten-question scenario-based quiz required after each meeting to help Athletics evaluate what the student-athletes are taking away from these educational sessions.

Sports Expectations Scorecard. Ms. Rose reviewed the sports expectations scorecard, which is used to evaluate the success of each sports team. Ms. Rose stated that Athletics administrators meet with the head coaches each year to review goals and objectives for each category so that coaches and administrators have a clear understanding of the expectations for each sport. Ms. Rose stated that the “gate receipts” category shown on the scorecard was added at the Athletics Committee’s direction following their previous review of the scorecard.

Aegis Sports Testing Services Report Card. Mr. Byrd provided the Committee with the Aegis Sports Testing Services Report Card for academic year 2016-2017. Mr. Byrd noted that UNC Charlotte’s number of positive tests is well below the average for all other schools using Aegis’ services. Mr. Byrd stated that in-house drug testing results do not get shared with the NCAA; rather, the NCAA performs a separate drug test with different parameters at other times throughout the year.
Athletic Department Update. Ms. Rose updated the Committee on fall sports. Ms. Rose also distributed a *Sports Business Journal* article on alcohol served at sporting events and gave an update on alcohol being served at football games in “Norm’s Tavern.”

Athletics Committee Annual Report Schedule. Ms. Schulte reviewed the annual report schedule with the Committee. No changes were made.

Adjournment. There being no further business, Ms. Schulte adjourned the meeting.

Call to Order. Ms. Drew called the meeting to order and reminded committee members of their duty to avoid conflicts of interest and appearances of conflicts of interest under the State Government Ethics Act, in accordance with Chapter 138A of the North Carolina General Statutes, and advised the Committee members to notify her immediately if anyone should become aware of a conflict of interest or the appearance of a conflict of interest during the meeting. No conflicts of interest were reported.

Approval of the Minutes. Ms. Drew requested action on the April 20, 2017, meeting minutes of the Facilities and Physical Properties Committee.

Action. On a motion by Mr. Jamil, seconded by Mr. Bunker, the Committee unanimously approved the April 20, 2017, Facilities and Physical Properties Committee meeting minutes.
Update on Previously Approved Health and Wellness Center and Scott Hall Debt Issuance. Ms. Hardin reported on the debt issuance for the new Health and Wellness Center and the Scott Hall renovation and for the refinancing of the Elm, Maple, and Pine residence halls. Ms. Hardin stated that the Board of Governors approved this debt issuance at its September 8, 2017, meeting.

Ms. Hardin reported that the University’s rating agencies, Moody’s and Standard & Poor’s, both reaffirmed their ratings for the University, with Moody’s giving the University an Aa3 and a Stable outlook and Standard & Poor’s giving the University A+ rating with a Stable outlook. Ms. Hardin stated that both agencies cited the strong enterprise profile of the University, including growing demand and enrollment trends, consistently positive financial operations, strong operating and capital support the state, and a capable management team.

Request for Capital Authorization—Energy Projects—Phase I. Mr. Jones, Associate Vice Chancellor for Facilities Management, stated that the University has retro-commissioned energy-inefficient buildings and that this process has improved energy consumption by 33 percent. Mr. Jones stated that lighting in the Bioinformatics and the King Building has been upgraded and that the University will continue to retro-commission other older buildings using carry-forward funds.

Ms. Drew requested a motion to approve the capital authorization for Energy Projects—Phase I.

**Action.** On a motion by Mr. Jamil, seconded by Mr. Bunker, the Committee unanimously recommended that the Board authorize the University to undertake a capital improvement project, Energy Projects—Phase I, with a budget of $488,670.

Request for Approval of Capital Project Designer Selection—Moore Hall Renovation. Ms. Hardin stated that since the Moore Hall Renovation was presented to the committee that interviewed the potential designers, Student Affairs and Business Affairs staff have reviewed whether new construction or renovation would be most appropriate. Ms. Hardin stated that typically when a renovation costs 65 percent or more of what it would cost to build a new building, new construction is appropriate.

Chancellor Dubois stated that as the University considers whether to renovate Moore Hall or construct a new building, the University must also decide how much housing it needs. Chancellor Dubois noted that private housing is being built all around campus. Chancellor Dubois stated that the University should be able to house 80 percent of its freshman class, but he also noted that Levine Scholars are the only students required to live on campus.

Ms. Hardin stated that Wilson Jones, a University housing project analyst, will do an analysis to help staff decide whether Moore Hall should be renovated or demolished. Ms. Hardin stated that the Committee and the Board should continue the process for approval of renovation in case the analyst recommends renovation as the best path for the Moore Hall project.

Mr. Jones and Mr. Bunker agreed that the University should keep renovation and construction projects at a relatively low price point so that living on campus remains affordable for students.
Ms. Drew requested a motion to approve the capital project design selection for the Moore Hall Renovation.

Action. On a motion by Mr. Bunker, seconded by Mr. Jamil, the Committee unanimously recommended that the Board approve the selected designer, Gensler, Architecture, Design & Planning, P.C., and first and second alternates Moseley Architects and LS3P Associates, Ltd., for the Moore Hall Renovation project.

Requests for Ratification of Capital Project Designer Selection—Career Center Renovation and Reclaimed Water Project.

Career Center Renovation. Mr. Jones stated that the space that the Career Center will occupy was vacated in the Counseling Center’s move to a new building. Mr. Jones noted that the space is contiguous to the J. Murrey Atkins Library. Mr. Jones stated that planned improvements will enhance the Center’s main lobby and reception area, office, conference room, meeting spaces, employer interview rooms, and support areas. This project was authorized for $2,000,000.

Mr. Jones stated that the selection committee recommended that the Committee approve the following designers for the Career Center Renovation:

Selected:  Little Diversified Architectural Consulting, Inc.
1st Alternate:  Lambert Architecture + Interiors
2nd Alternate:  Creech & Associates, PLLC

Ms. Drew requested a motion to approve the capital project designer selections for the Career Center Renovation.

Action. On a motion by Mr. Bunker, seconded by Mr. Jamil, the Committee unanimously ratified the selected designer, Little Diversified Architectural Consulting, Inc., and first and second alternates Lambert Architecture + Interiors and Creech & Associates, PLLC, for the Career Center Renovation.

Reclaimed Water Project. Mr. Jones stated that the $2.1 million Reclaimed Water Project will reduce potable water needs throughout campus by supplying reclaimed water from the Mallard Creek Water Reclamation Facility for cooling tower makeup, irrigation, and other non-potable water needs.

Mr. Jones stated that the design and construction layout of the reclaimed water lines will serve existing regional utility plants supplying the EPIC and PORTAL buildings as well as connections to existing irrigation systems. Mr. Jones stated that the selection committee recommended that the Committee approve the following designers for the Reclaimed Water Project:

Selected:  AECOM Technical Services of North Carolina
1st Alternate:  Thomas & Huton Engineering Co.
2nd Alternate:  Gavel & Dorm Engineering, PLLC
Ms. Drew requested a motion to approve the capital project designer selections for the Reclaimed Water Project.

Action. On a motion by Mr. Bunker, seconded by Mr. Jamil, the Committee unanimously ratified the selected designer, AECOM Technical Services of North Carolina, and first and second alternates Thomas & Huton Engineering Co and Gavel & Dorn Engineering, PLLC, for the Reclaimed Water Project.

Request for Authorization to Acquire by Lease—Warehouse Storage Lease: Surplus Storage.
Mr. Jones stated that the University’s current two-year lease for warehouse storage will expire on December 31, 2017. Mr. Jones stated that the University currently leases a 9,120 square foot warehouse space for surplus storage.

Action. On a motion by Mr. Jamil, seconded by Mr. Bunker, the Committee unanimously recommended that the Board authorize the University to lease warehouse storage at a rental cost of $84,000 for an additional two-year term.

Request for Authorization to Acquire by Lease—Kannapolis Core Lab: Research Office Expansion. Mr. Jones stated that UNC Charlotte has a significant presence at the North Carolina Research Center (NCRC) and needs to expand its research and office space there.

Dr. Cory Brouwer, Director of Bioinformatics Services Division and Associate Professor, stated that the number of faculty and graduate students has expanded significantly and that UNC Charlotte has filled all of its currently assigned space and will need additional space to accommodate its seven-year personnel plan. Dr. Brouwer stated that NC State University and UNC Chapel Hill have allowed UNC Charlotte to share their spaces at no cost, but both of those universities now need their space that UNC Charlotte staff and students have occupied. Dr. Brouwer stated that the University’s research focus is human health and nutrition and that, as the only participating institution that has a bioinformatics department, UNC Charlotte has a strong collaborative relationship with the other universities at NCRC. Dr. Brouwer noted that eight universities are represented at NCRC and that the universities’ collaboration with private industry is thriving as well.

Mr. Jones stated that NCRC is a unique research campus and that in many cases its physical work spaces are customized to research lab specifications and lease rates reflect those higher costs. Mr. Jones stated that the University has negotiated considerable savings, including having janitorial and utility costs included in the base rent.

Mr. Jones stated that the University requests authorization to lease an additional 4,460 square feet of office space adjacent to its existing space for a seven-year term at $37.40 per square foot, with an initial annual cost of $316,404.00 per year, which will equal $2,317,025 for the initial seven-year term. Mr. Jones noted that subsequent rents will increase at 1.5 percent annually.
Ms. Drew requested a motion to authorize the Kannapolis Core Lab: Research Office Expansion.

Action. On a motion by Mr. Bunker, seconded by Mr. Jamil, the Committee unanimously recommended that the Board of Trustees approve the request to lease additional research and office space at a cost of $2,317,025 for the initial seven-year term at the North Carolina Research Campus in Kannapolis.

Motion to Convene in Closed Session. Ms. Drew called for a motion for the Committee to convene in closed session.

Action. On a motion by Mr. Jamil, seconded by Mr. Bunker, the Board convened in closed session pursuant to the following General Statute of the State of North Carolina: N.C.G.S. §143-318.11(a)(5), to establish, or to instruct the public body’s staff or negotiating agents concerning the position to be taken by or on behalf of the public body in negotiating (i) the price and other material terms of a contract or proposed contract for the acquisition of real property by purchase, option, exchange, or lease; or (ii) the amount of compensation and other material terms of an employment contract or proposed employment contract.

**Remarks by the Chancellor.** Chancellor Dubois stated that Mr. Bryan’s efforts to increase the cap on fundraising maximums was very important to UNC Charlotte, and he thanked Mr. Bryan for his work. The Chancellor stated that a record fall enrollment of 29,317 ranks UNC Charlotte as the third largest campus in the UNC system. The Chancellor shared data on enrollment growth, noting that increasing enrollment has been critical to the University’s ability to fund nearly $30 million in staff and faculty salary adjustments. Chancellor Dubois noted that Sherrie High, UNC Charlotte’s budget director, represents the University on the Board of Governors’ Funding Model Task Force Committee. The Chancellor noted that new state budgeting procedures will delay the allocation of new enrollment increase funding until late 2017.

Chancellor Dubois stated that the University has allocated $15 million in recurring funding, which will be used in part for a $2.7 million strategic salary adjustment for full-time faculty and the creation of 33 new faculty positions, and $10 million in one-time funding for renovations, repairs, and equipment purchases.

The Chancellor noted that the University has filled several key positions, including a new vice chancellor for Student Affairs, Kevin Bailey, and a new director of Internal Audit, Jennifer Walker.
The Chancellor stated that the University celebrated its 71st annual Founder’s Day in mid-September, which was also the one-year anniversary of a police shooting near the University’s campus and civil unrest in uptown Charlotte. The Chancellor stated that Student Affairs and Academic Affairs had organized a number of activities to allow students and faculty to reflect on the events of the previous year.

The Chancellor also discussed a recent incident in which a student posted a racially inflammatory sign in a residence hall. The Chancellor stated that the incident prompted the University to open a discussion about race and inclusion on campus.

The
Chancellor stated that the new health and wellness center, for which site work has begun, will be called the University Recreation Center, or UREC. The Chancellor stated that the University’s rapid enrollment growth is allowing the University to build UREC with no additional debt service fees and an operating fee of $50 phased in over a five-year period at $10 per year. The Chancellor presented a video simulation of UREC. Mr. Wilson stated that the University competes for educating funding and that UREC, which students voted for twice, exemplifies the type of asset that helps the University increase enrollment.

The Chancellor stated that the Lynx Blue Line is still expected to begin operations in March 2018 and that unlimited access to light rail and all other public transportation modes will be $50 for students and $75 for faculty and staff per year. Ms. Decker asked whether the demand for on-campus housing is expected to change once light rail transportation is available. Chancellor Dubois stated that the University is waiting to see what effect light rail has on housing demand and stated that the University’s goal is to house the 80 percent of freshman who choose to live on campus.
