Call to Order. Ms. Schulte called the meeting to order and reminded Committee members of their duty to avoid conflicts of interest and appearances of conflicts of interest under the State Government Ethics Act, in accordance with Chapter 138A of the North Carolina General Statutes, and advised the Committee members to notify her immediately if anyone should become aware of a conflict of interest or the appearance of a conflict of interest during the meeting. No conflicts were reported.
Approval of Minutes. Ms. Schulte requested action on the October 11, 2017, Audit, Compliance, and Enterprise Risk Management Committee meeting minutes.

Action. On a motion by Mr. Price, seconded by Ms. Rouse, the Committee approved the October 11, 2017, Audit, Compliance, and Enterprise Risk Management Committee minutes.

EHRA and SHRA Employee Classifications. Mr. Stinnett presented to the Committee an overview of the differences between employees subject to the Human Resources Act (SHRA) and employees exempt from the Human Resources Act (EHRA). Mr. Stinnett provided detailed summaries of EHRA and SHRA employee data on retirement, reduction in force, severance pay without cause, grievances, and performance management. Mr. Stinnett noted that SHRA employee performance is reviewed under a formal, state-mandated system requiring numerical rankings and that the University is now moving toward a more defined performance management process for EHRA employees. Mr. Stinnett provided SHRA and EHRA employee data and reported that the University has undergone 51 percent employment growth over the last ten years, primarily in EHRA staffing. Mr. Stinnett provided a brief summary of the several key strategic human resources issues, including recruitment, retention, competitive salaries and benefits, performance management, and leadership development.

Mr. Stinnett reported that the North Carolina General Assembly has expanded its definition of EHRA to include University information technology professional positions. Mr. Stinnett noted that universities sought this flexibility to be more competitive with respect to certain compensation and leave issues given a competitive IT labor market. Mr. Stinnett stated that the University has the authority to offer these employees the choice to become exempt or remain in their current SHRA status.

Mr. Stinnett informed the Committee that the Board of Governors’ strategic plan calls for every University of North Carolina employee to be surveyed during a five-year period, with a focus on areas of concern such as engagement, recruitment, and retention. Mr. Stinnett reported that a survey will be released in January 2018 to UNC Charlotte employees and that results will be made available later in the year.

Internal Audit Update. Ms. Walker updated the Committee on the annual audit plan for fiscal year 2018. Ms. Walker stated that she outsourced the Payment Card Industry (“PCI”) compliance audit because the current internal audit staff may not have the qualifications to complete the technical aspects of the project and because outsourcing frees up staff to work on other projects on the very aggressive audit plan. Ms. Walker reported that CampusGuard, a compliance and security consulting firm for higher education, will conduct the PCI project under her supervision beginning December 11, 2017.

Ms. Walker presented a summary of Internal Audit Reports issued since October 2017, including the Registrar/Academic Integrity Follow-up, Time & Attendance Investigation Report, and Bookstore Investigation Report. Ms. Walker updated the Committee on the current Internal Audit Active Findings Report. Ms. Walker stated that in the future she will replace the Active Findings Report with an Exceptions Findings Report that will show findings that have missed their remediation date, or for which the remediation date has been extended. Mr. Price agreed but
requested that the report retain high-risk items. Ms. Walker agreed stated that she will present a proposed revised report at the next Committee meeting.

**Environmental Health and Safety Office (EHSO) Remediation Update.** Ms. Walker indicated that the University Safety and Health Committee has been re-established. Mr. Jones was asked to provide an update on the remediation efforts related to floor plans. Mr. Jones indicated that there is an initiative to bring all buildings up to code. Mr. Griffin reported that EHSO will be providing additional fire drills, will update evacuation plans, and engage in campus-wide training.

**Compliance Update.** Ms. Burgess discussed the status of the State Board of Elections and Ethics Enforcement (SBE) Biennial Review of Statements of Economic Interests (SEI) for Calendar Year 2016. Ms. Burgess reported that the SBE review of the Cabinet members’ SEIs is complete, with one exception. Ms. Burgess noted that reviews of Trustee SEI submissions have been delayed because of staff turnover within SBE.

Ms. Burgess briefly reviewed the University Ethics and Compliance Programs and Activities report from September 2017 through October 2017. Ms. Burgess updated the Committee on the status of two external reviews: a Department of Defense Voluntary Educational Institutional Compliance Review, and the Department of Labor Office of Federal Contract Compliance Program Review. Ms. Burgess stated that both reviews are ongoing. Ms. Burgess also noted that the University is participating in a Critical Assessment Survey conducted by the Department of Defense.

Mr. Humphrey reported to the Committee that the Enterprise Risk Management (ERM) position description is being finalized and that the search will open to applications soon.

**Changes to Title IX (Education).** Mr. Humphrey presented to the Committee recent changes to the Office of Civil Rights (OCR) Title IX guidance. Specifically, Mr. Humphrey reported that in February 2017 the OCR withdrew the 2016 Dear Colleague Letter on transgender students, and in September 2017, the OCR rescinded the 2011 Dear Colleague Letter. Mr. Humphrey noted that one major revision to UNC Charlotte’s University Code of Student Responsibility is the removal of the strict timeline of sixty calendar days to complete a Title IX investigation. Mr. Humphrey briefly summarized respondent litigation at other universities in 2014 and 2015. Mr. Humphrey reported that approximately 50 percent of these were reversed and at least twenty of these cases received favorable results for respondent lawsuits.

Mr. Humphrey noted that the Board of Governors has instituted a working task force, and that Jonathan Adams, Associate Dean of Students and Director of Student Conduct, will be part of that group. Mr. Humphrey will report on any developments from that working group at a later time. Mr. Humphrey stated the University is unsure of the future direction of Title IX. Mr. Humphrey indicated that at this time the University does not plan to make any significant changes to its Title IX process and that most universities are taking the same position. Mr. Humphrey stated that, until further guidance, the “law of the land” for the University is OCR’s 2001 Revised Guidance on Sexual Harassment.

**Other Business.** Mr. Humphrey introduced the Audit, Compliance, and Enterprise Risk Management Committee calendar with a list of all regular and as-needed agenda items and their due dates.

Action. On a motion by Mary Ann Rouse seconded by Sharon Decker, the Committee approved the October 11, 2017, meeting minutes.

Research Spotlight. Dr. Wilhelm introduced Dr. Dulin and Dr. Smith. Drs. Dulin and Smith presented an overview of the formation and evolution of a unique partnership between medical practitioners and staff at Carolina’s Healthcare System’s Department of Family Medicine; UNC Charlotte faculty and students in Geography, Nursing and Public Health; and community agencies and advocates working with underserved populations in under-resourced neighborhoods across the Charlotte region. Dr. Dulin stated that the Mecklenburg Area Partnership for Primary Care Research (MAPPR), which was established in 2005 and of which he is director, is a practice based research network that uses the principles of community-based participatory research to build interventions that improve access to primary and preventative care, advance health outcomes, and enhance quality of life. Dr. Dulin stated that since its inception, MAPPR has received funding from the National Institutes of Health, the Agency for Healthcare Research and Quality, The Duke Endowment, The Patient Centered Outcomes Research Institute, and the Charlotte Research Institute.

Dr. Smith stated that, with its community partners, MAPPR has examined patterns of healthcare utilization, identified barriers to healthcare access, and explored social and spatial determinants of health. Dr. Smith noted that the results of these investigations have been used to develop a comprehensive, web-based community resource guide (ranging in topics from health, legal, government, and education); expand a nutrition and exercise class to help combat obesity among Latina families; launch a Spanish-language radionovela program profiling stories of health behavior and nutritional choices; and hold monthly wellness fairs at in elementary schools to provide medical and social support services.

IT Centralization—Scope and Plan. Mr. Carlin reviewed the findings of a recent state audit, including increased demand for IT services, siloed IT service delivery, and a need to better leverage the University’s IT capabilities and resources. Mr. Carlin reviewed the plan to address these concerns, including the University’s objectives, approach, and means of assessment. Mr. Carlin stated that consulting firm BerryDunn has been hired to conduct an assessment of the University’s central and distributed IT organizational structures. Mr. Carlin presented a timeline of project milestones. Ms. Schulte asked whether efforts to manage risk and improve security will include cybersecurity, and Mr. Carlin stated that he is personally managing cybersecurity and that a risk matrix will be developed in January 2018. Dr. Carlin stated that BerryDunn’s assessment is expected in spring or summer 2018.

Demonstration Activities Response Team (DART). Dr. Bailey and Mr. Adams provided an overview of the University's Demonstration Activity Resource Team (DART), a multidisciplinary team charged with providing information for and observing and responding to campus demonstration activities such as protests, marches, camp outs, and sit-ins. The team’s goal is to
support the University’s commitment to facilitating a safe environment in which members of the community can exercise their First Amendment rights but in which any interference with normal University operations is minimized. Mr. Adams reviewed roles and responsibilities for DART team members and the process for activating DART.

Adjourn. There being no further business before the committee, Mr. Wilson adjourned the meeting.
